Introduction Letter

PENT.

LUXURY FITNESS EQUIPMENT

PENT. was established in 2011, on the base of experience and know-how gained in previous years as a supplier of fitness solutions for professional fitness clubs.

PENT. is a family company belonging to, among others Marcin Raczek and Jagoda Markowska--Raczek. An equal or maybe even greater contribution to the company is made by a very trusted and specialized team of passionate people who have created probably the best and largest fitness equipment for home and hotel gyms. It can therefore be said that all the credit goes to the entire team, and the founders only enabled the dream to become a real product that delighted customers all over the world.

The main assumption that guided the creator of the brand from the beginning was to create fitness equipment that would be a designer piece of furniture and a timeless work of art. Fitness equipment devoid of electronics, made of the best and precious materials, which not only won't depreciate over years, but will even gain in value as a product that is the crowning achievement of the highest art of craftsmanship and design.

From the very beginning, the main initiator and founder (Marcin Raczek) believed that in the coming years, demanding customers will expect something more than just ordinary fitness equipment. They will be looking for beautiful things with which they will also be able to surround themselves in their private fitness zone.

The year 2020 turned out to be a breakthrough year for PENT. A new collection of equipment was created and the portfolio of products was significantly expanded, which aroused great interest during the lockdown caused by COVID-19 pandemic.

The founder, Marcin Raczek, is the main originator, visionary and the person responsible for creating new products. However, the new 2020 collection was designed in collaboration with the main brand's designer - Joanna Brandys from the Brand'ys Design, a company located in the same city where PENT. originates from - Bielsko-Biała, a city located in the mountains in the southern part of Poland.

PENT. provides door-to-door services worldwide, supplying to popular markets such as Europe, the US and Canada, as well as Singapore, Tokyo, Australia, Dubai, London, Vancouver, Cannes, Hong Kong and Sydney.

Who Has PENT.?

LeBron James

In recent times, the LeBron James Foundation has become one of our valued clients. The LeBron James Foundation, established and led by the renowned NBA superstar LeBron James, is a prominent charitable organization dedicated to making a positive impact on various aspects of communities across the United States.

ERLING HAALAND

When it came to equipping his private gym, Haaland chose PENT. — the world's most luxurious fitness equipment brand. For him, performance and environment go hand in hand. Every session should be an experience, every detail a reflection of discipline and taste.

Terry Crews

PENT. is thrilled to announce a collaboration with one of the most recognizable stars in the United States, Terry Crews. Terry is not just a television personality but also a former professional athlete and a global advocate for strength training. For PENT., teaming up with Terry Crews couldn't be more fitting.

Ellen DeGeneres

American stand-up comedian, television host and actress. She is the host of the talk show The Ellen DeGeneres Show.

How It's Made

PENT.
LUXURY FITNESS EQUIPMENT

PENT. luxury accessory is dedicated to trainers for personal studio fitness, a luxury spa and gym, but also for private use for home gym.

All these elements combine to make a unique item addressed to an informed and demanding consumer.

Our design team is experienced and talented staff and their work in conjunction with high quality materials supplied by renowned manufacturers and the use of modern machines, makes the PENT. luxury fitness equipment products unique and timeless.

PENT. has everything a exclusive home gym and personal studio should have – perfect angle, curve and exclusive stainless steel finish. The oiled walnut provides a firm grip and is very hygienic, with no harmful substances being passed on to the user when they perspire.

Our goal is to create unique items for the demanding customer, so we decided to use special materials.

Form our accessories is the result of many months of design process, during which tested many solutions and materials aiming to obtain products that meet the requirements of our demanding customers.

OUR ECO SOLUTIONS FOR PLANET

WHY IT'S ECO?

Explore our solutions that make us more environmentally friendly.

LUXURY IN A SUSTAINABLE EDITION

As a manufacturer of luxury goods, we prioritize not only excellent quality but also sustainable production for each of our products. Eliminating plastic, we source materials sustainably from recycling and ecological breeding sources.

OUR COMMITMENTS TO NATURE

NATURAL RESOURCES

We set high standards for our suppliers and only collaborate with those who source raw materials sustainably.

ONE PRODUCT, ONE TREE

Every PENT. product purchased at EMSO clubs means one more walnut tree.

LONG LIFECYCLE OF PRODUCTS

By emphasizing durability, quality, and timeless design, we extend the lifecycle of our products for many years.

NATURAL RESOURCES

1

RECYCLED STEEL

2

WE DON'T USE PLASTICS

4

**LEATHER FROM SUSTAINABLE
BREEDING**

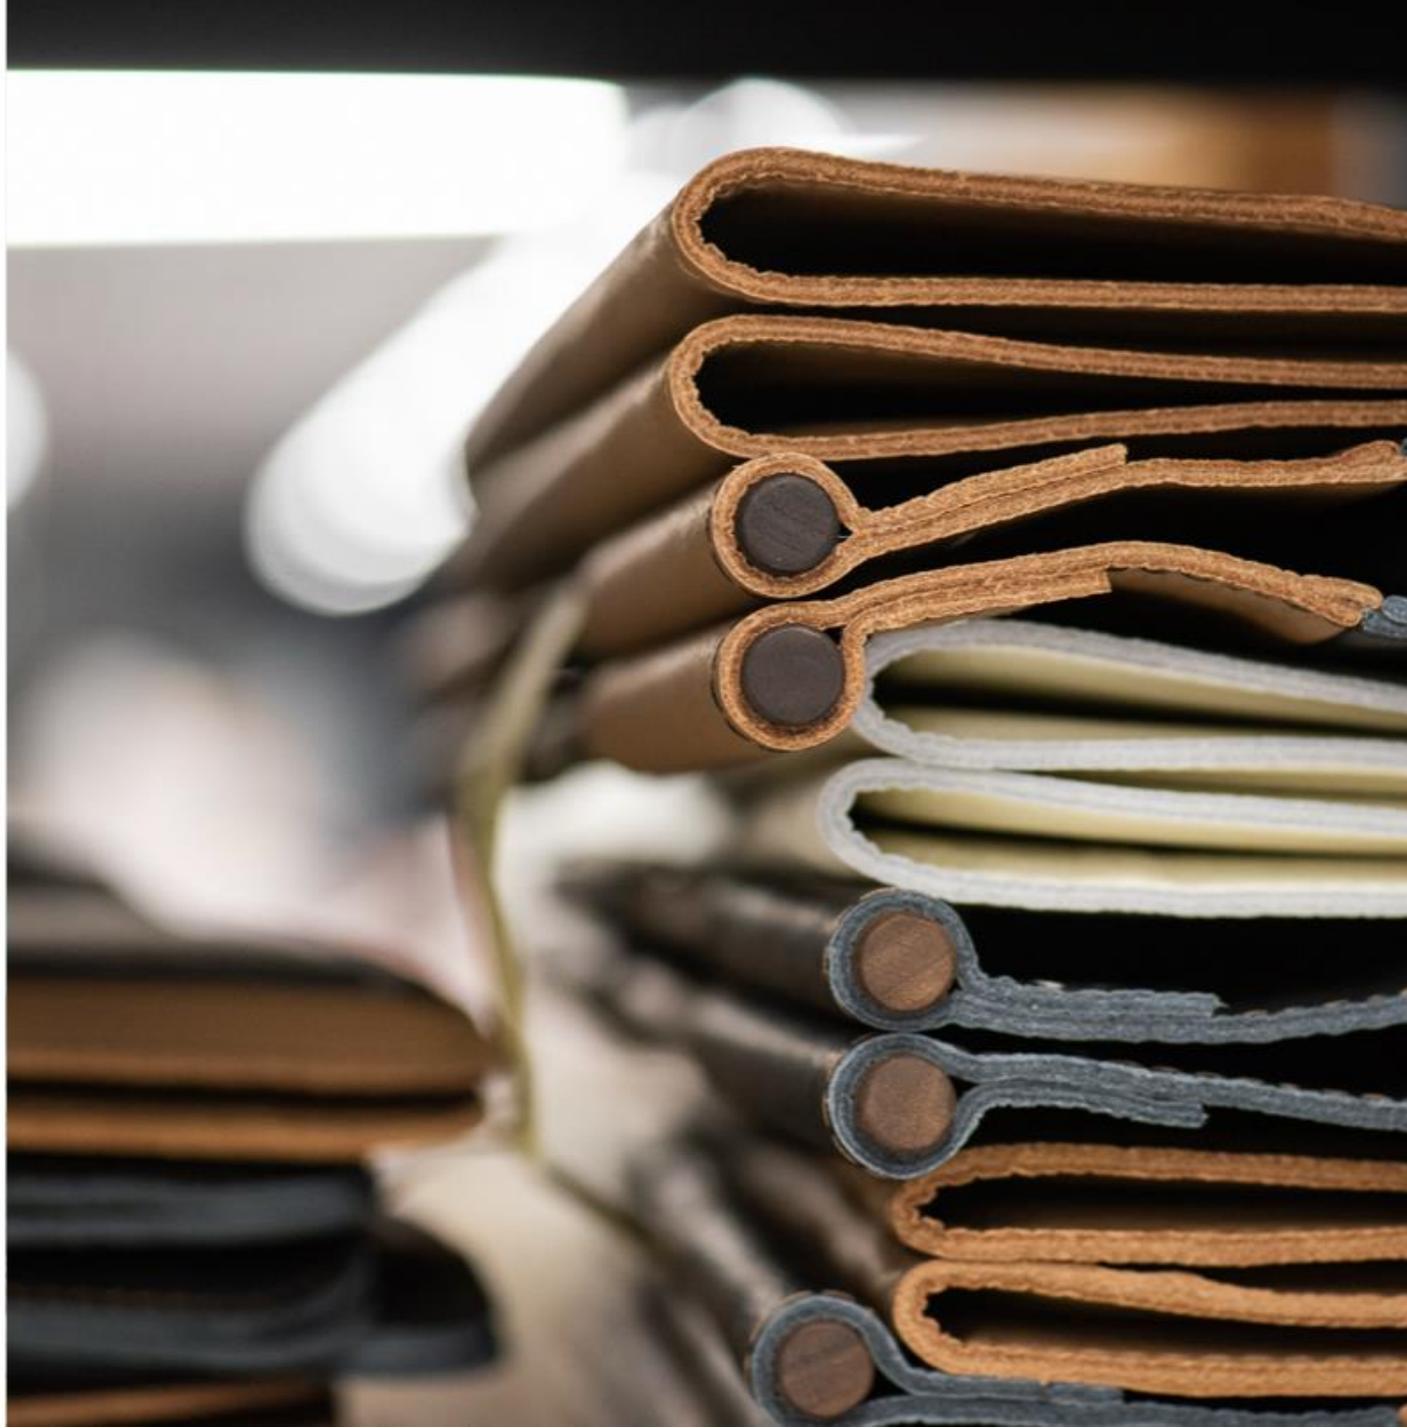

SUSTAINABLE SOURCING OF RAW MATERIALS

In caring for our planet, PENT. places great emphasis on sustainable sourcing of raw materials.

The steel used in the production of our products is exclusively sourced from recycling, eliminating a negative impact on the environment.

Walnut wood used in our products is harvested from ecological plantations, ensuring the protection of forests and natural ecosystems.

The leather we use comes solely from sustainable sources, eliminating a negative impact on the natural environment. In this way, PENT. not only delivers high-quality products but also sets an inspiring example for the industry, promoting sustainable practices throughout the production cycle.

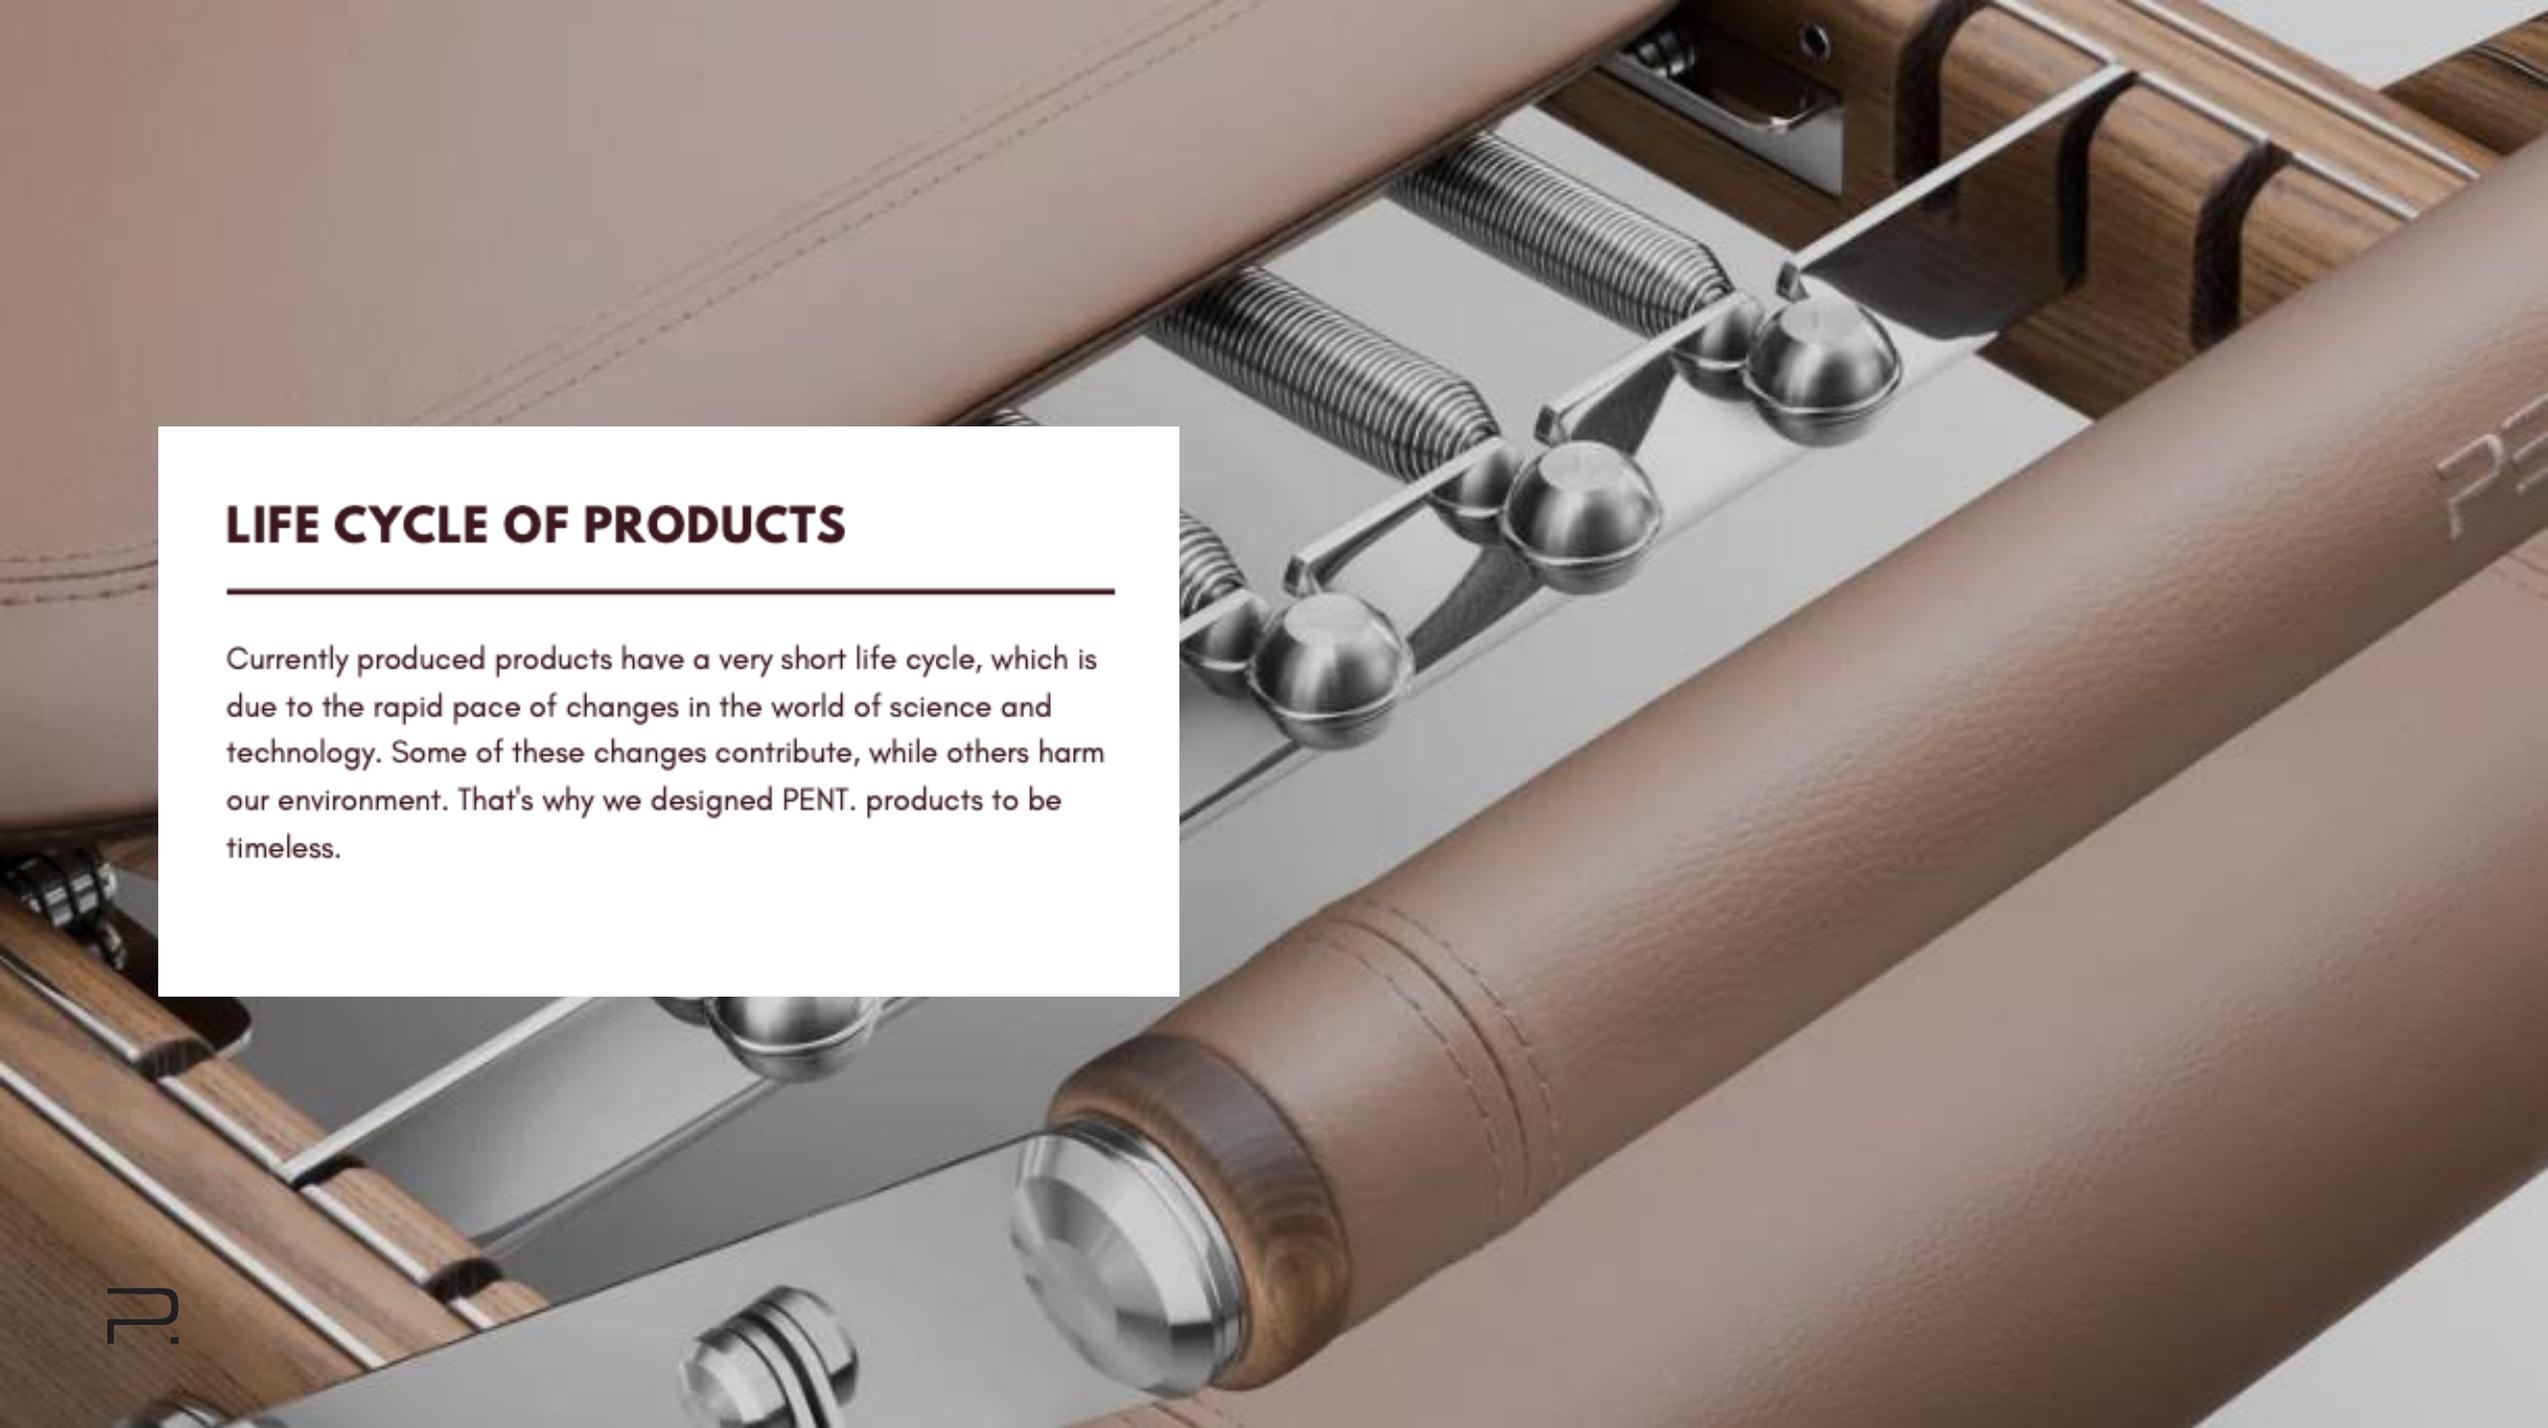

ONE PRODUCT

The exclusive product line from PENT. will be available only in EMSO clubs, allowing customers to extend their club experience to their home workouts.

ONE TREE

Every purchased product from the PENT. brand means planting one new walnut tree on an ecological Polish farm, allowing club customers to contribute to taking care of our planet.

A detailed close-up photograph of a mechanical watch movement. The image shows intricate metal gears, springs, and levers. Two leather straps are visible, one in the foreground and one in the background, both featuring precise stitching. The watch case appears to be made of wood or a similar natural material. The lighting is soft, highlighting the textures of the metal and leather.

LIFE CYCLE OF PRODUCTS

Currently produced products have a very short life cycle, which is due to the rapid pace of changes in the world of science and technology. Some of these changes contribute, while others harm our environment. That's why we designed PENT. products to be timeless.

TIMELESS DESIGN

We have crafted our products with a focus on the highest quality, ergonomic form, and durability, while also minimizing the waste of the materials we use.

Each of our accessories and fitness equipment is characterized by timeless elegance, extending their lifecycle for many years, perfectly aligning with an ecological approach to natural resources and their utilization.
